

To view the PDF files:

Option 1: Use Firefox or Opera and not Chrome

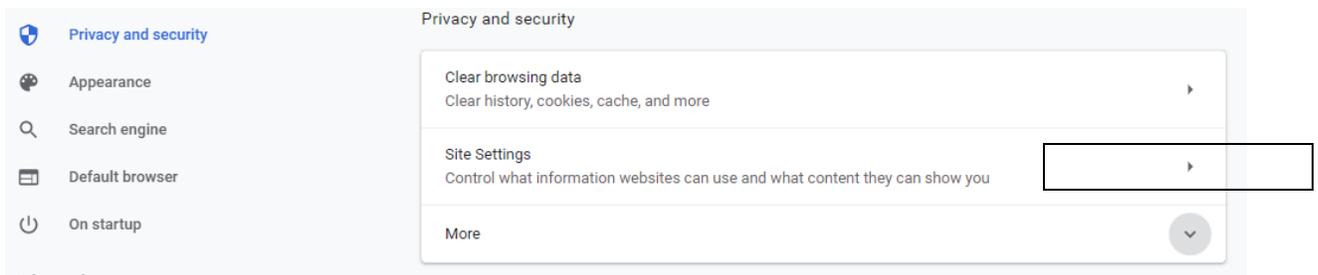

Option 2: If you will use Chrome, you need to set the PDF Privacy Setting to automatically download and open PDF files

Here is how to do option 2:

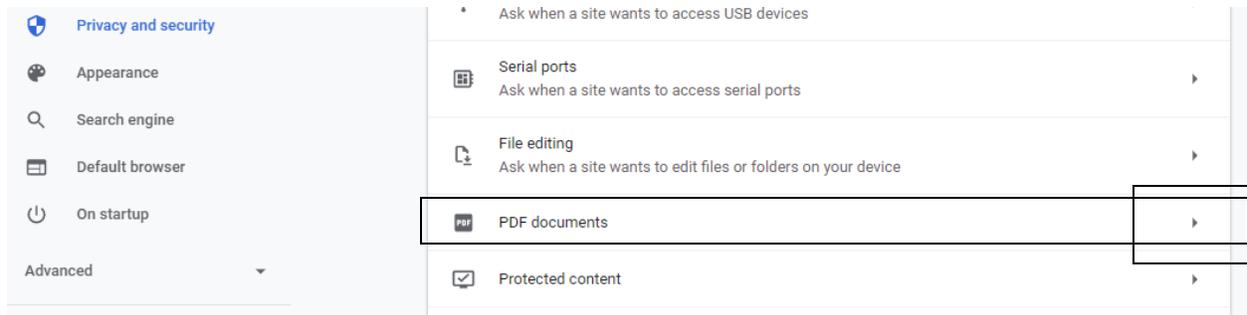

1. On your computer, open **Chrome**
2. At the top right, click Settings or More Settings. (three dots)
3. At the bottom, click Show advanced settings OR locate 'Privacy and Security' at the left

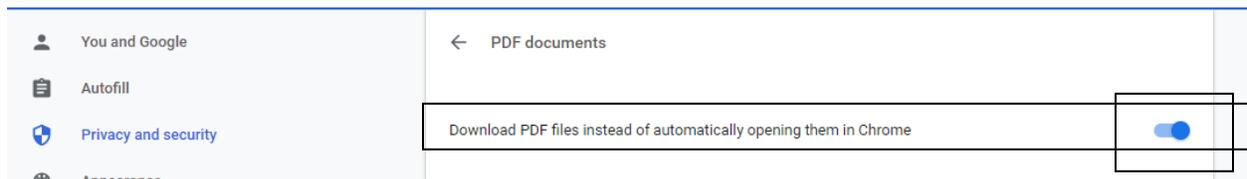

4. Under "Privacy", click Site Settings (forward arrow).

5. Scroll downwards until you see "PDF Documents," and click the arrow to the right

6. check the box next to "Open **PDF** files in the default **PDF** viewer application." Make sure this is enabled

7. DONE.
